

WHAT WE OFFER AS... **CHIFVC**

Basecamp

Basecamp is our main means of communicating out to the sector about relevant opportunities and information. This may include professional development opportunities, job vacancies, articles, research or webinars of interest. To be added to our Basecamp, you can [email us](#) with the subject 'Basecamp Request', your name and position title.

Learning Management System (LMS)

Our LMS is available through our website, and hosts free e-learning modules. The modules are self-paced, with mixed media on up-to-date local content. We provide Certificates of Completion and further resources to strengthen your learnings. Head to the Learning tab on [our website](#) to access the LMS (or scan the QR code below).

Family Violence & Disability Practice Lead (FVDPL)

The FVDPL aims to strengthen access to specialist family violence and sexual assault support for people with disabilities at risk of family violence. The program aims to ensure that support is inclusive of and tailored to the needs of people with disabilities. Specialist family violence and sexual assault services in the Central Highlands can access secondary consultation and emerging best practice advice about supporting clients with disability. The practice lead can also support family violence and sexual assault services to audit their organisation for potential ableism and to meet their legal obligations to be accessible to people with disabilities. Contact Susan Muller for more information by emailing susie@chifvc.org.au or calling **0493 783 464**.
